Please Note: Transfer instructions may vary depending on equipment.

### Drying Time:

- Faster dry time compared to competing alternatives, allowing instant transfer.

### Storage & Handling:

- Products should remain in protective packaging until ready for use.
- Store and use product in environments with 36% to 51% relative humidity for effective printing and drying.
- Allow paper to acclimate to room temperature prior to usage.
- Avoid exposure to heated or air conditioned air currents.
- Avoid storing paper directly on the floor.

### Shelf Life:

- One-year shelf life in its original packaging. To protect the material, it is recommended to store the paper in its original packaging until your next use.

The information provided herein is correct to the best of Nekoosa's knowledge. No liability for any errors, facts or opinions are accepted. Customers must satisfy themselves as to the suitability of this product for their application. No responsibility for any loss as a result of any person placing reliance on any material contained herein will be accepted.
