NEKOOSA

Specialty Print Media ... Where you need it, when you need it.

Looking for a reliable source for wide and grand format rolls and custom sheeted pressure sensitive films? Turn to Nekoosa. With multiple converting centers and 200+ distribution partner locations throughout North America, we can get you the material you need quickly.

Why Nekoosa?

Quality – Nekoosa consistently sources the best materials our industry has to offer. We hold ourselves to the highest standard of offering high quality products.

Service – Quick turnarounds? No problem. Nekoosa ships stocked products the next day and custom sheeted products within 3-5 business days.

Visibility – We make it easy for our distribution partners to access inventory levels through our new T.A.P. system so they can provide you with quick answers.

STOCKING LOCATIONS

Las Vegas, NV Wisconsin Rapids, WI Lakewood, NJ Nekoosa embodies a strong legacy of manufacturing and converting specialty paper. What originated in 1961 has evolved over its 60 years in the industry, building upon the foundation of Nekoosa Coated Products by acquiring brands like RTape, Catalina Graphic Films, Mojave Digital Media, ClingZ, NCR PAPER* and CET Films.

Today, you know Nekoosa as a premier manufacturer of specialty print media, sustaining a reputation as an innovator and market leader in producing high-quality products with globally recognized and trusted brands. With a history rooted in quality and innovation, one constant that has not changed is Nekoosa's desire to provide unsurpassed service and value to our employees, customers and shareholders — embracing our core values of being Growth Focused, Authentic and Winning Together.

Today, Nekoosa's expertise spans coating, converting and custom plastic extrusion capabilities, with a product offering that includes wide and grand format rolls, offset, screen, HP Indigo and dry toner sheets, specialty synthetics, application tapes and premasks, carbonless papers and extruded films. Select brands include RTape, SYNAPS, ClingZ®, Hi-Stat®, Wall Graphics®, Sign-Ad® and NCR PAPER*.

This guide covers Nekoosa's specialty print media offerings. For more information, visit nekoosa.com or contact the Nekoosa Customer Service team at 877-258-6046.

MULTIPURPOSE REMOVABLE PRESSURE

One product, endless applications. Create floor, wall and window graphics with one universal media ... Trifecta[®].

6 mil semi-rigid matte white textured facestock

High opacity film with an excellent white point

Universal removable adhesive that will cleanly remove from indoor and outdoor applications for <6 months

Stable 90# layflat polycoated paper liner for ease of printing and installation

ASTM E84 Class 1 or A rating

Print Compatibility: Wide Format (Solvent, Eco-Solvent, Latex and UV), UV Offset and Screen

When to use Trifecta

One-Step Floor Graphics - Create UL 410 slip resistant floor graphics in one easy step... no overlaminate required. Easy to install and remove. Trifecta® is suitable for indoor short term floor graphics (<6 months). *Not intended for outdoor floor graphic applications. For best results, we recommend printing floor graphics with UV inks to avoid potential scuffing.

<u>Wall Graphics</u> - Hassle free textured wall decals - peel, stick, done. No need for tapes, tacks or nails and will remove cleanly from painted dry wall.

<u>Window Graphics</u> - Enhance the look of standard window graphics with a dimensional, textured finish. Perfect for short term decorative window decals smaller than 2' x 2'.

SYNAPS XM | DIGITAL DRY TONER/LASER SYNTHETIC POLYESTER PAPER

SYNAPS XM is the superior alternative to traditional lamination.

Minimal scrap, waste and time compared to traditional lamination

Waterproof, tear-proof and weather resistant – suitable for indoor and outdoor applications

Double sided matte white finish, rigid and lays flat

Superior dimensional stability for precise registration

Antistatic top coating ensures strong toner adhesion and smooth feeding through the printer

Easily washable with a mild soap and soft cloth

Available in 5, 8, 10, 12 and 14 mil digital cut sized sheets

Print Compatibility: Digital Dry Toner/Laser

NOW ANTIMICROBIAL – SYNAPS XM is now armed with an antimicrobial coating that prevents up to 99.9% of bacteria, viruses, fungi and mold from growing on the sheet's surface over the lifetime of the printed application.

This logo represents Nekoosa's commitment to offering sustainable alternatives to traditional PVC materials. 100% of this product line is PVC-Free

SYNAPS OM OFFSET, HP INDIGO & WIDE FORMAT SYNTHETIC POLYESTER PAPER

Superior dry times using standard offset conventional inks make SYNAPS OM the optimal choice for short-run, on demand printing.

Waterproof, tear-proof and weather resistant - suitable for indoor and outdoor applications

Dries quickly without the need for special offset inks – just like uncoated paper

Superior dimensional stability for precise registration – less shrinkage and distortion on press

High grade opaque polyester film – PVC free, rigid and lays flat

Double sided matte white finish – Printable on both sides

Available in 5, 8,10 and 14 mil digital cut sizes, folio sheets and wide format rolls

Print Compatibility: Offset (Conventional and UV), HP Indigo, Latex and UV Wide Format Also Available in Wide Format Rolls

This logo represents Nekoosa's commitment to offering sustainable alternatives to traditional PVC materials. 100% of this product line is PVC-Free.

LED Screen Protection

Hi-Stat® static cling vinyl is a very flexible film which adheres to most clean, high polished surfaces without adhesive.

Ideal for temporary promotional applications used indoors or outdoors (<3 months)

Easy to apply, remove and reposition for application to most clean, high polished surfaces – no surface damage

Can be wet applied, but no solvents needed for application or removal

Can be die-cut, kiss-cut and plotter cut

Available in folio sheets, digital cut size sheets and wide format rolls in white, clear or optically

Laminate Nekoosa's Hi-Stat® Clear with Sign-Ad® Gloss White Opaque to easily create removable 'push-pull' two way signage

NEW - Wide format rolls now enhanced with a 90# polycoated layflat release liner for optimal performance on wide format printers

Print Compatibility: Wide Format (Solvent, Eco-Solvent, Latex, UV), Offset (Conventional Offset/Litho and UV), HP Indigo and Screen

◆TRANSLUCENT CALENDERED VINYL

ADHESIVE BACKED
TRANSLUCENT FILM

The ideal solution for both photographic and high quality signage applications where vivid color saturation and extreme image resolution is required.

Maximum color density with advanced ink adhesion technology

For indoor and outdoor use

Removable adhesive

Ideally suited for mild solvent and solvent inks

Print Compatibility: Wide Format (Solvent, Eco-Solvent, Latex and UV), UV Offset and Screen

TRANSLUCENT CALENDERED VINYL ADHESIVE BACKED TRANSLUCENT FILM

Safety Decals

REFLECTIVE VINYL ADHESIVE BACKED REFLECTIVE VINYL

Reflective Vinyl is a flexible, enclosed lens glass-bead retroreflective sheeting that reflects light. Ideal for safety and commercial signage applications.

For indoor and outdoor use (<7 years) — highly resistant to extreme hot, cold, dry and humid weather conditions

Permanent bonding after 48 hours, removable adhesive with heat (<3 years)

Can be applied to flat, corrugated and riveted surfaces

Available in white

Pressure-activated adhesive for easy installation

Print Compatibility: Wide Format (Solvent, Eco-Solvent, Latex and UV) and Screen

MOUNTING FILMS PERMANENT AND REMOVABLE POLYESTER

Easily convert non-adhesive backed films to pressure sensitive materials with either a permanent or removable mounting film.

Offered in a variety of gauges and adhesive combinations

Water-resistant for excellent indoor durability (<3 years indoors)

Printed film liners and self-wound liners available

Available with a clear film air-egress printed release liner option

Available in wide format rolls - custom sizes available upon request

This logo represents Nekoosa's commitment to offering sustainable alternatives to traditional PVC materials. 100% of this product line is PVC-Free.

UR1	Removable	Universal Moderate-Peel, Moderate-Tack	Clear	Multi-use: floor, walls and windows. Up to 6 months clean removability.	40° F (4.4° C)	-10° to 140° F (-23° to 60° C)
W79	Removable	Moderate-Peel, Moderate-Tack	Clear	Microsphere removable for smooth painted surfaces. 1 year clean removability.	40° F (4.4° C)	-10° to 140° F (-23° to 60° C)

Peel is defined as the average force to part two bonded materials. We use ASTM D3330, 180 degree peel test method for our adhesive values. Adhesion values will vary depending on substrates but as a general guideline in our descriptions, the terms low, moderate and high peel relate to the following as measure on stainless steel with 15 min dwell time:

Low Peel: <10 oz/in | Moderate: 10 – 20 oz/in | High Peel: >20 oz/in

Tack is the property of an adhesive that allows it to adhere to another surface on immediate contact. It is the "stickiness" of the adhesive while in a fluid (e.g., paper cement) or semi-fluid (e.g., pressure sensitive adhesive) state. The descriptors low, moderate and high tack are relative terms; they are used to indicate how easily a film may be repositionable (where low is easy and high is not) or how quickly a film will bond with the surface (where low is slow and high is fast).
